SHADOW TIPS

1. Tape pattern in position as shown by diagram.
2. Save pattern and refer to it while carving.
3. Scrape shadow area to about 1" thick.
4. Carve the face first, then the hair and hands.
5. After carving shadow, place a lit candle in the pumpkin. Look through the carving toward the wick. Notice the extra flesh between where you see the wick and the outer cut edge of the pumpkin. This extra flesh will distort the shadow. Saw with a downward, diagonal stroke to remove the extra flesh.
